

Software Engineering Assignment

★ Q/A

Q 1) what is software? what is software engineering?

Ans Software :-

-> A set of instructions, data or programs used to operate computers & execute specific tasks.

-> They are intangible parts of computer.

⇒ Software Engineering :-

-> It is branch of computer science that deals with design, development, testing and maintenance of software applications.

-> It is engineering based approach for software development.

Q 2 Explain types of software

Ans types of software

① Application Software

→ This includes software applications which are used in day-to-day life.

Eg:- MS office, Downloaded games, sublime etc.

② System Software

→ This includes software which are inbuilt in system.

Eg:- operating system, calculator etc.

③ Driver Software

→ This includes drivers which are installed automatically in system.

Eg:- Audio, video, Printer etc.

④ Middleware Software

→ The software which interacts between system and application.

Eg:- Database Middleware, server Middleware ie word, excel etc.

⑤ Programming Software.

→ The software in which we do programming

Eg:- Dev c++, VS code, eclipse etc.

Q-3 Explain SDLC and each phase of SDLC.

Ans SDLC means Software Development Life cycle.

→ There are 6 six stages of it

① Requirement Gathering

→ It gathers all requirement of client.

② Analysis

→ It does analysis regarding the requirements presented by clients.

③ Designing

→ It includes the designing part of software includes front end part.

④ Implementation

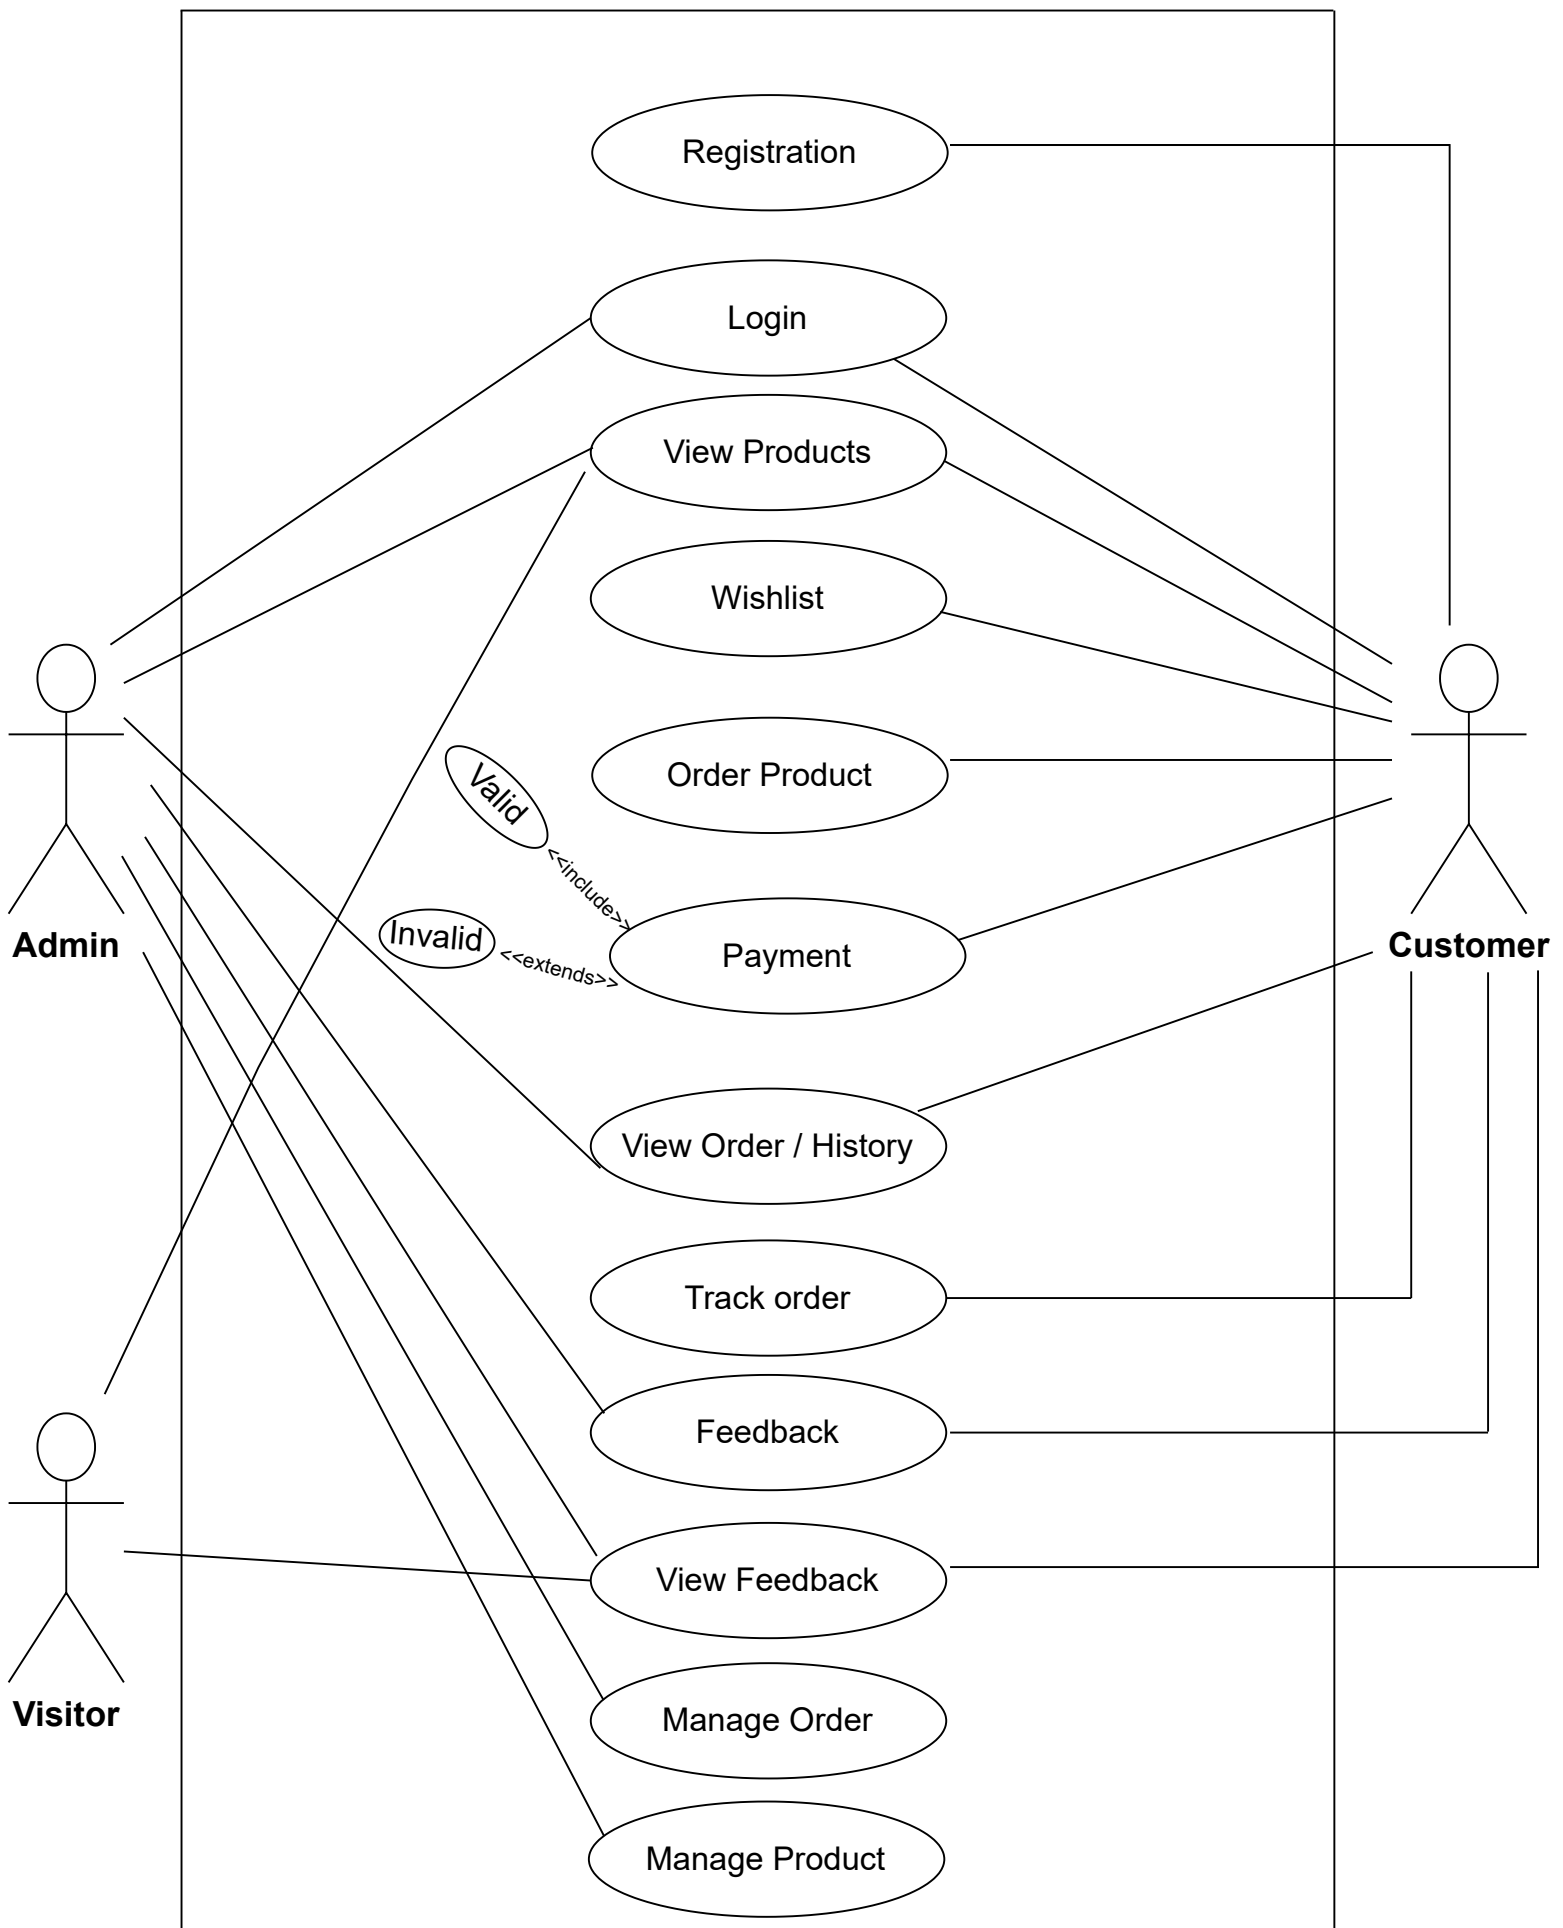

→ It includes the coding part of software i.e. includes back-end part.

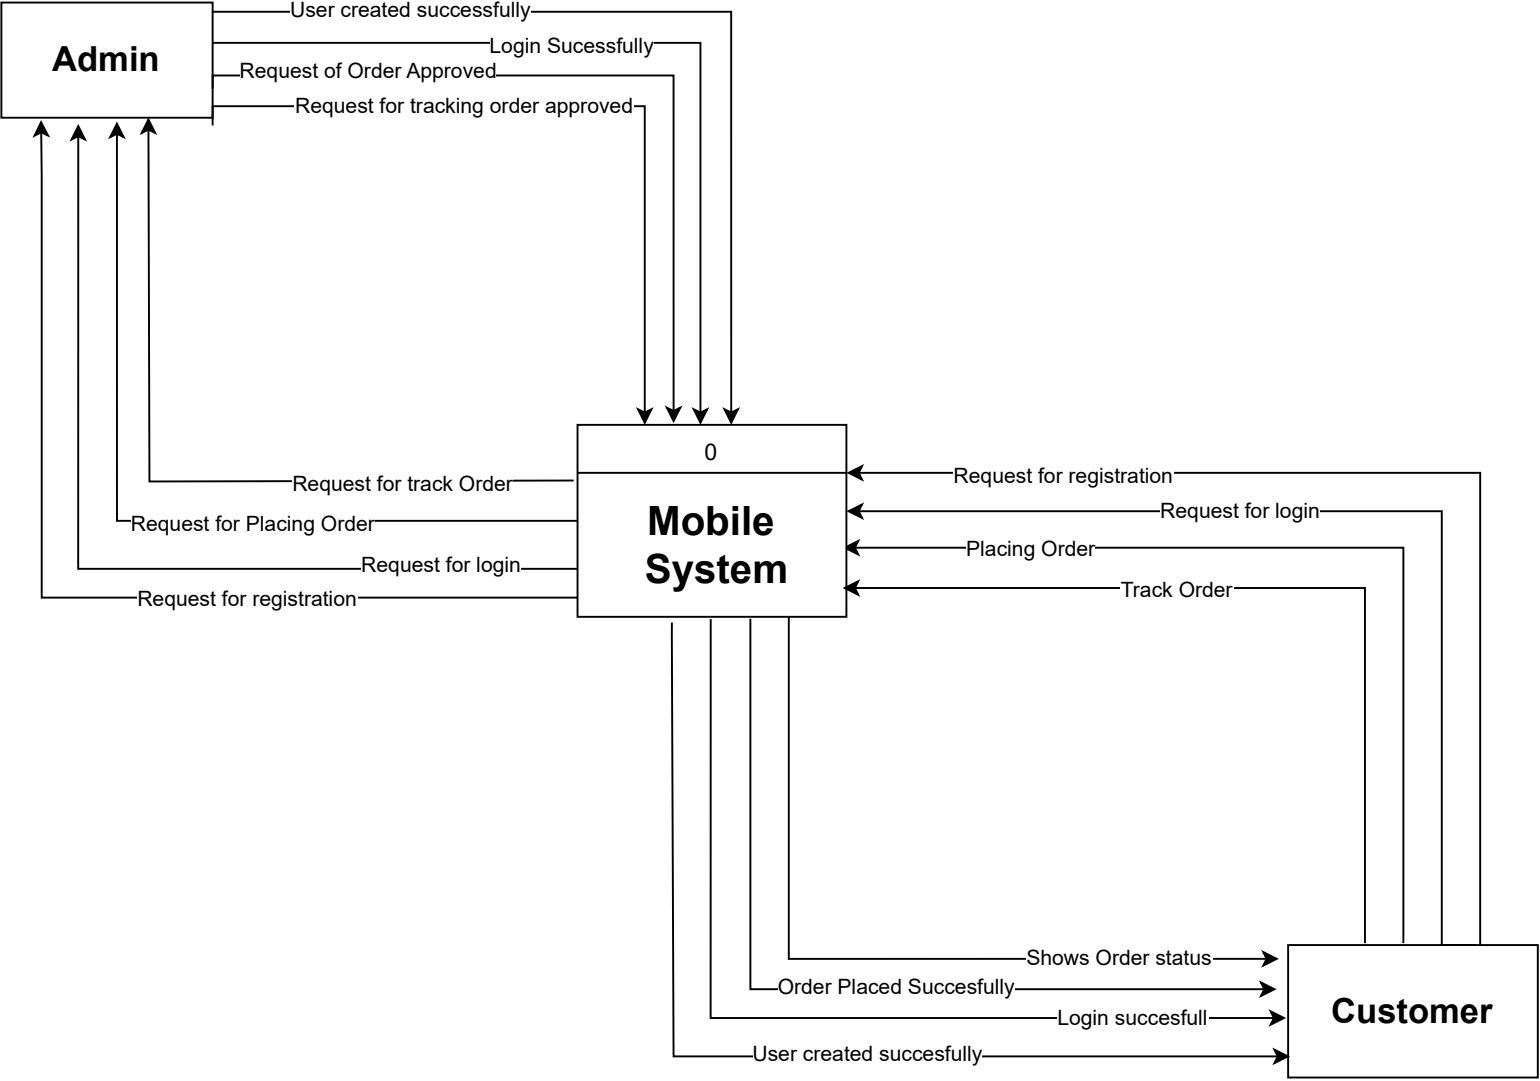

⑤ Testing

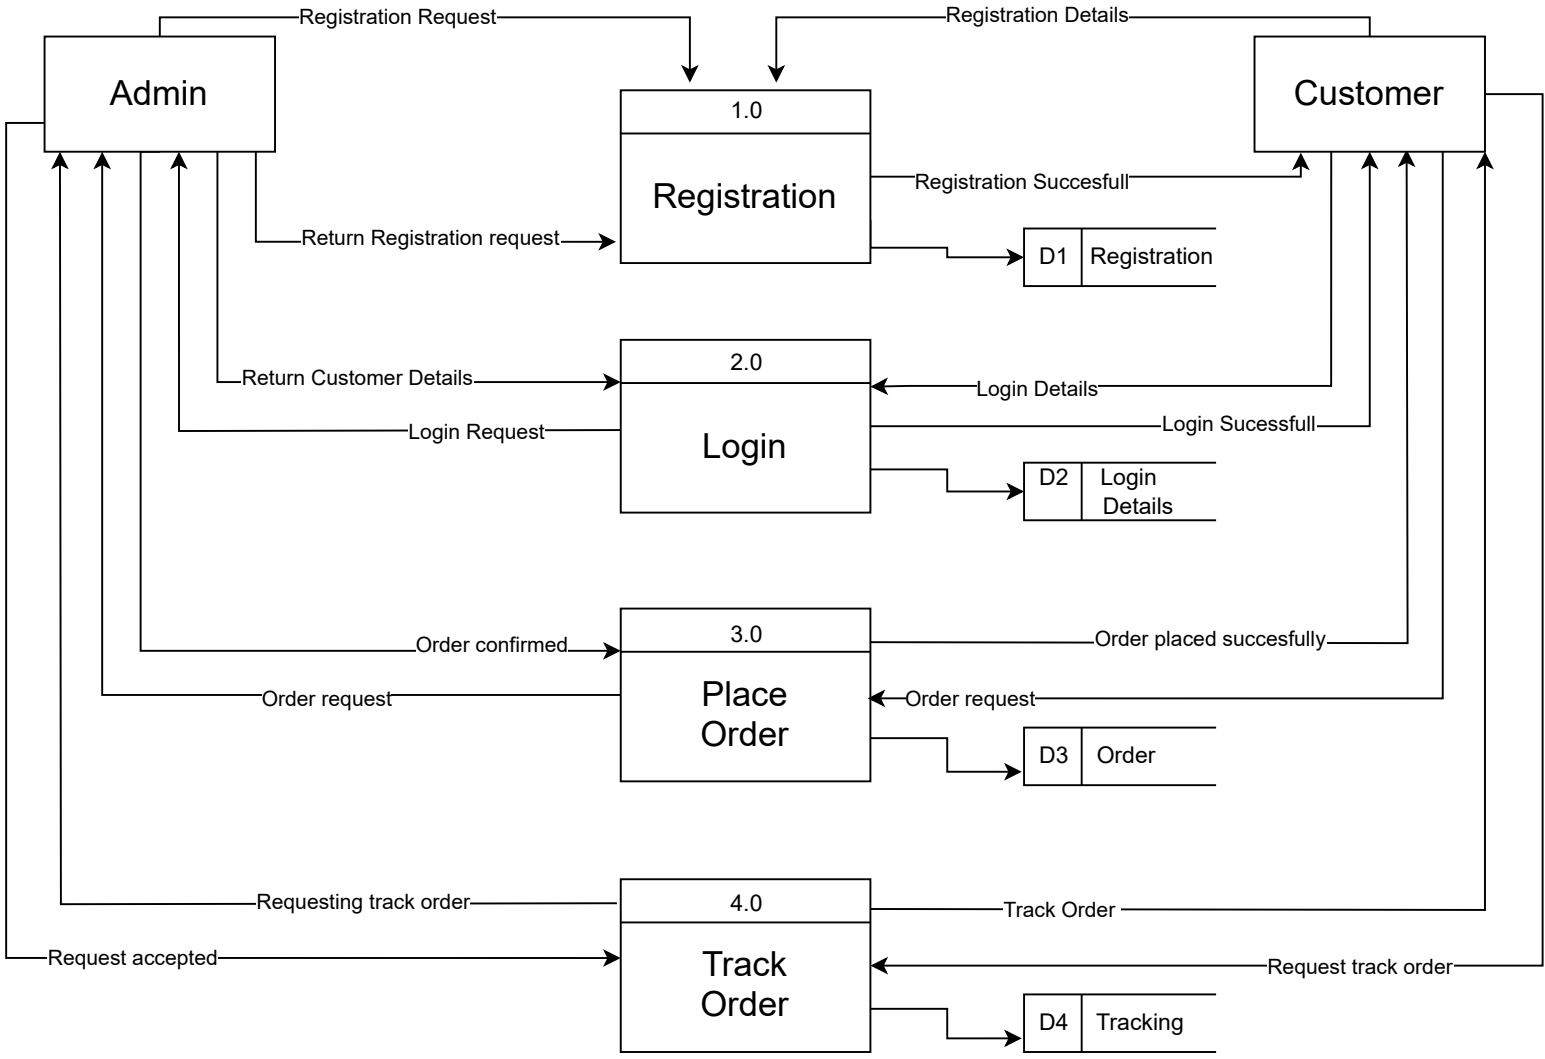

→ It includes the testing of software which is made according to requirement.

⑥ Maintenance

→ It includes maintenance of software.

DATA DICTIONARY

Customer Table :

FIELD	DATATYPE	SIZE	KEY	DESCRIPTION
Customer_Id	Integer	20	Primary Key	Store into customer id
Customer_Name	Varchar	30	Not Null	Store into customer name
Customer_Phone No.	Integer	20	Not Null	Store into customer phone no.
Customer_Email	Varchar	30	Not Null	Store into customer email
Customer_Password	Varchar	30	Not Null	Store into customer password

Admin Table :

FIELD	DATATYPE	SIZE	KEY	DESCRIPTION
Admin_Id	Integer	20	Primary Key	Store in admin id.
Admin_Name	Varchar	30	Not Null	Store in admin name.
Admin_Password	Varchar	30	Not Null	Store in admin password
Admin_Email	Varchar	30	Not Null	Store in admin email

Order Table :

FIELD	DATATYPE	SIZE	KEY	DESCRIPTION
Order_Id	Integer	20	Primary Key	Store into order id
Customer_Id	Integer	20	Foreign Key	Store into customer id.
Product_Id	Integer	20	Foreign Key	Store into product id.
Product_Name	Varchar	30	Not Null	Store into product name
Customer_Name	Varchar	30	Not Null	Store into customer Name
Order_Status	Varchar	30	Not Null	Store into order status.
Order_Quantity	Integer	20	Not Null	Store into order quantity
Total_Price	Integer	30	Not Null	Store into total price
Order_Date	Date	20	Not Null	Store into order date.

Payment Table :

FIELD	DATATYPE	SIZE	KEY	DESCRIPTION
Order_Id	Integer	20	Foreign Key	Store into order id
Order_Amount	Integer	20	Not Null	Store into order amount
Customer_Name	Varchar	30	Not Null	Store into customer name

Cart Table :

FIELD	DATATYPE	SIZE	KEY	DESCRIPTION
Cart_Id	Integer	20	Primary Key	Store into cart id.
Product_Id	Integer	20	Foreign Key	Store into product id.
Product_Name	Varchar	30	Not Null	Store into product name
Product_Image	Varchar	30	Not Null	Store into product image
Product_Quantity	Integer	20	Not Null	Store into product quantity
Product_Price	Integer	20	Not Null	Store into product price

Product Table :

FIELD	DATATYPE	SIZE	KEY	DESCRIPTION
Product_Id	Integer	20	Primary Key	Store into product id.
Product_Name	Varchar	30	Not Null	Store into product name
Product_Quantity	Integer	20	Not Null	Store into product quantity
Product_Image	Varchar	30	Not Null	Store into product image
Product_Price	Integer	20	Not Null	Store into product price

Feedback Table :

FIELD	DATATYPE	SIZE	KEY	DESCRIPTION
Customer_Id	Integer	20	Foreign Key	Store into customer id.
Product_Id	Integer	20	Foreign Key	Store into product id.
Customer_Name	Varchar	30	Not Null	Store into customer name
Product_Name	Varchar	30	Not Null	Store into product name
Feedback_Date	Integer	20	Not Null	Store into feedback date
Feedback_Desc	Varchar	30	Not Null	Store into feedback description

Registration Table :

FIELD	DATATYPE	SIZE	KEY	DESCRIPTION
Customer_Name	Varchar	30	Not Null	Store into customer name
Customer_Email	Varchar	30	Not Null	Store into customer email
Customer_password	Varchar	30	Not Null	Store into customer password
Customer_Phone No.	Integer	20	Not Null	Store into customer phone no
